Dear Deputy Special Master,

**RE: Holocaust victims Assets Litigation - Application from the Center of  
Organization of Holocaust Survivors.  
Committee for Commemoration Legacy and Education.  
Assistance in Memorialization Activities.**

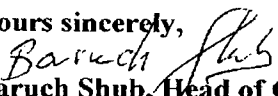

Further to your fax of March 23, 2004, we are happy to provide the following information and trust that it answers your questions:

The various activities for which we have applied to the Court for support will, together, help some 10,000 Shoah survivors in the first calendar year.

It is impossible to estimate the number of people within the wider public who will be impacted.

The total program costs in the first calendar year are \$250,000.

The average per person cost in the first calendar year, taking into consideration only the Shoah survivors who will be impacted by our programs and activities is \$25.

Yours sincerely,  
  
**Baruch Shub, Head of Committee  
Commemoration, Legacy and Education**
